# NAINIL OZA

*Full-Stack Developer | React.js | Node.js | CRM Platforms*

Ahmedabad, Gujarat, India | +91 7 874 539 433 | nainiloza1412@gmail.com | linkedin.com/in/nainiloza | github.com/Nainil1412

## PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience building CRM, e-commerce, financing, and workforce platforms using React.js, Node.js, Express.js, TypeScript, PostgreSQL, MongoDB, and REST APIs. Skilled in configurable CRM architecture, Role-Based Access Control (RBAC), dynamic data models, database optimization, real-time updates, payment workflows, DocuSign, AWS S3, and email/SMS integrations.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, SQL

**Frontend:** React.js, Redux, TanStack Query, HTML5, CSS3, SCSS

**Backend:** Node.js, Express.js, REST APIs, JWT, authentication, authorization, Role-Based Access Control (RBAC), Sequelize

**Databases and Search:** PostgreSQL, Citus, MySQL, MongoDB, Prisma ORM, JSONB, Elasticsearch, Redis/BullMQ

**Real-Time and Notifications:** WebSockets/Socket.IO, SendGrid, Twilio, email notifications, SMS notifications

**Integrations and DevOps:** Stripe, Apple Pay, DocuSign, AWS S3, webhooks, Git/GitHub, Docker, NGINX, Sentry, CI/CD

**AI-Assisted Development:** Claude Code, OpenAI Codex

## PROFESSIONAL EXPERIENCE

**Software Developer** | eSparkBiz Technologies Pvt. Ltd., Ahmedabad

*July 2023 - Present*

- Architect and maintain enterprise CRM modules using React.js and Node.js, supporting dynamic entities, relationships, filters, and configurable views without hardcoding every CRM schema.
- Build scalable REST APIs with JWT authentication and role-based access control for secure multi-tenant environments.
- Optimize MongoDB and PostgreSQL queries through indexing and query restructuring; integrate Elasticsearch for full-text search.
- Integrate automation workflows and event-driven triggers, and contribute to production deployments, incident resolution, and code reviews.
- Use AI-assisted development tools for code generation, refactoring, unit-test creation, and documentation, with manual review and validation.

## EARLIER EXPERIENCE

**Software Developer Intern** | eDelta Enterprise Solutions Pvt. Ltd., Ahmedabad

*January 2023 - June 2023*

- Built and enhanced web features using React.js, JavaScript, Node.js, Express.js, and MongoDB.
- Integrated a payment gateway, developed responsive user flows, and used Elasticsearch and Git/GitHub during live project delivery.

## SELECTED PROJECTS

### CRM Platform

- Contributed to an all-in-one CRM platform that brings together configurable entities, contacts, deals, activities, proposals, bookings, email marketing, and follow-up workflows.
- Engineered configurable CRM modules for Leads, Deals, Contacts, Accounts, and Activities using custom fields and relationship-aware PostgreSQL/JSONB data models.
- Implemented dynamic filtering, sorting, pagination, query optimization, real-time updates, and email/SMS notification workflows using PostgreSQL/Citus and WebSockets/Socket.IO.

### Remote Hiring and Contractor Payroll Platform

- Contributed to a remote hiring and workforce management platform that enables companies to hire professionals on a contract basis, manage onboarding, contracts, payroll, and related operations.

### E-commerce and Financing Platform

- Built customer and admin portals for a watch marketplace with product browsing, cart management, checkout, and financing workflows using React, TypeScript, Node.js, Express, Prisma, and PostgreSQL.
- Implemented purchase and financing workflows with admin approval, DocuSign contract signing, Stripe card and Apple Pay payments, financing payments, webhooks, and AWS S3 document storage.

## EDUCATION

### Bachelor of Engineering in Information Technology

*G H Patel College of Engineering & Technology, Gujarat | 2023 | Languages: English, Hindi, Gujarati*
